### PRESS RELEASE

Piercing the air in a shrill staccato, a single a word is heard - EXPOSE. Gradually, becoming a chorus against the backdrop of a fluttering flag of Antigua and Barbuda, it heralds the appearance on screen of "Tizzy," one of soca music's most sensational female artists. Anyone unfamiliar with the talents of Tanzania Sebastian will be mesmerized by the performance delivered by this exotic Antiguan beauty. The voice, the moves, and those scintillating looks are a guaranteed delight. Be prepared to join the ranks of her many adoring fans, for this is Tizzy at her undiluted best.

This is the experience offered by the newly released music video of El-A-Kru's hit song "Expose" from their 2006 album Antigua Nice. It is a galvanizing performance; replete with all of the colour, rhythm and energy that El-A-Kru has developed a reputation for. As a testament to the fervent patriotism of this talented group of musicians, the flag of Antigua and Barbuda features prominently throughout the video; punctuating the breathtakingly picturesque backdrops against which it is filmed and boasting their nationality to the viewers. It embodies the essence of the song- an invitation, if not a challenge, to all Antiguan and Barbudans to EXPOSE the love of their country.

The video was released on the Internet where in a relatively short period it has already been viewed an incredible 20,000 plus times and counting. (Links listed below) It was released on Synergy TV in Trinidad and was voted onto their top ten video countdown. It has been sent to MTV Tempo and other regional and international video outlets.

The unbridled enthusiasm and support expressed by the fans has been overwhelming and serves as a tremendous reward to the tireless efforts of El-A-Kru in perfecting their art. The band members express their heartfelt appreciation to all of the parties involved in the creation and production of this video, particularly Nigel Thompson of Black Ice Studios who produced it and all of the extras who graciously gave their time and talent to this project.

To the people of Antigua and Barbuda we say this video is for you. Let's celebrate our nation and all it has to offer: Sun, Sea, Sand...and Soca. ***EL-A-KRU style.***
